ABOUT ME

I am a student at King Mongkut's University of Technology North Bangkok, studying computer science. I have an interest in web design, and mobile application development. Skilled in coding and problem-solving, seeking an internship to enhance technical expertise and apply academic knowledge to real-world challenges. With my passion in these fields, I am excited and ready to embrace new opportunities and learn from a dynamic organization.

PROJECT EXPERIENCE

Website buy game and rent game
React (Feb 2024 - April 2024)

We focus on designing a purchasing website that meets customer needs, with an accessible and user-friendly interface. Our goal is to transform the traditional game-buying experience and ensure that users receive the best possible experience.
